1 Analyzing the Romanian Economy through a DSGE Modelling Framework	
<i>by Adrian Liviu Dorofte</i>	2
1.1 Introduction	2
1.2 Literature Review	3
1.3 The DSGE Modelling Framework	6
1.4 The DSGE Models at Work	8
1.5 Historical Variance Decomposition	19
1.6 Forecasting in the SWGK Model	22
1.7 Conclusions	23
2 Determinants of Inflation in New EU Member States – a New Keynesian Perspective	
<i>by Ioana Argăseală</i>	30
2.1 Introduction	30
2.2 Quantification of Inflation Expectations	32
2.3 The Model	41
2.4 Empirical analysis: Impulse Responses to Monetary Policy	52
2.5 Conclusions	64
2.6 References	66

3	Transmission Channels of Sovereign Default Riskk	
	<i>by Elena Baroian</i>	69
3.1	Introduction	69
3.2	Literature Review	71
3.3	Default Probabilities	74
3.4	Data	80
3.5	Results	83
3.6	Conclusions	92
3.7	References	93
4	Early Warning Systems for Predicting Banking Crises	
	<i>by Simona Borcea</i>	95
4.1	Introduction	95
4.2	Literature Review	97
4.3	Econmoetric approach	99
4.4	Empirical analysis	103
4.5	Econometric Results	111
4.6	Conclusions	116
4.7	References	118
5	The Transmission of Macroeconomic Shocks in Open Small Economies	
	<i>by Cristiana Iorga</i>	122
5.1	Introduction	122
5.2	Literature Review	123
5.3	Estimation of the GVAR Model	125
5.4	The Generalised Impulse Response Functions	131
5.5	Conclusions	144
5.6	References	145

6 Implications of Cumulative Prospect Theory in the Evolution of Stock Returns: an Empirical Study on the Romanian Stock Market	
<i>by Andreea Oprea</i>	149
6.1 Introduction	149
6.2 Conceptual Framework and Methodology	151
6.3 Database	160
6.4 Empirical Analysis – Results	163
6.5 Conclusions	170
7 A Macroeconomic Credit Risk Model	
<i>by Cosmin Turbatu</i>	174
7.1 Introduction	174
7.2 Macroeconomic credit risk models	177
7.3 Generalized linear mixed model	184
7.4 Model output and its interpretation	188
7.5 Conclusions	198
8 Stochastic Volatility Models Based on High-Frequency Data	
<i>by Bogdan-Andrei Tănase</i>	203
8.1 Introduction	203
8.2 Methodology	205
8.3 Identifying presence of microstructural noises	208
8.4 High-frequency data estimators	209
8.5 HAR model	210
8.6 HEAVY model	211
8.7 Data and empirical results	212
8.8 Conclusions	232
8.9 References	235

9 Evaluating Changes in the Monetary Policy Transmission Mechanism – Romania’s case	
<i>by Cosmin Turcu</i>	239
9.1 Introduction	239
9.2 Literature Review	241
9.3 The Econometric Model	245
9.4 Empirical results in the case of Romania	251
9.5 Conclusions	266
9.6 References	267
10 Interactions between the Public Sector and the Real Economy	
<i>by Ioan-Vlad Voinescu</i>	271
10.1 Introduction	271
10.2 The Aggregated Method	276
10.3 The Disaggregated Method	281
10.4 Conclusions	304
10.5 References	306
11 Estimating a DSGE Model to Evaluate the Monetary Policy in Romania	
<i>by Maria Alexandra Drăgan</i>	309
11.1 Introduction	309
11.2 Literature Review	310
11.3 The DSGE Models	313
11.4 Impulse Response Function Analysis	316
11.5 Estimating the Open Economy DSGE Model for Romania	319
11.6 Estimation Results	325
11.7 Conclusions	332
11.8 References	333

12 Dynamic Hedging

<i>by Alexandru Mitrică</i>	336
12.1 Introduction	336
12.2 Theoretical Considerations	338
12.3 Literature Review	340
12.4 Methodology	342
12.5 Data and Empirical Results	345
12.6 Conclusions	354
12.7 References	355
