

Table of contents

Chapter I	
Properties of the myocardium	7
Chapter II	
Electrocardiogram: general aspects	19
Chapter III	
Pathophysiology of atrial and ventricular overload	31
Chapter IV	
Pathophysiology of driving disorders.....	35
Chapter V	
Pathophysiology of rhythm disorders	43
Chapter VI	
Pathophysiology of cardiac perfusion disorders.....	63
Chapter VII	
Heart exploration methods	71
Chapter VIII	
Exploring the vascular system	78
Chapter IX	
Methods of functional exploration of the respiratory system - spirometry	96
References	101
ANNEX 1 - Elecetrocariograms.....	105
ANNEX 2 - Spirometries.....	168
ANNEX 3 - ECG interpretation.....	183
